# ECPPM 2024: EWork and EBusiness in Architecture, Engineering, and Construction

## Unlocking the Future of Building: Digital Transformation through EWork and EBusiness

As the world faces unprecedented challenges and opportunities, the Architecture, Engineering, and Construction (AEC) industry is undergoing a profound transformation. The advent of EWork and EBusiness technologies is revolutionizing how we design, build, and operate our built environment, empowering architects, engineers, contractors, and owners to work more efficiently, collaboratively, and sustainably.

The European Conference on Product and Process Modelling (ECPPM) has been at the forefront of this digital transformation. As the industry's leading annual event, ECPPM gathers thought leaders, practitioners, researchers, and solution providers from around the world to explore the latest advancements and best practices in EWork and EBusiness. In 2024, ECPPM will be held in Copenhagen, Denmark, and will focus on the theme "Empowering Architecture, Engineering, and Construction with EWork and EBusiness."

**ECPPM 2024 - eWork and eBusiness in Architecture, Engineering and Construction: Proceedings of the 13th European Conference on Product & Process Modelling ... 2024),15-17 September 2024, Moscow, Russia**

## ECPPM 2024: Highlights and Key Features

- **Expert Keynote Speakers:** Hear from industry leaders and visionaries who are shaping the future of EWork and EBusiness in AEC.

- **Thought-provoking Panel Discussions:** Engage in lively debates and discussions on the most pressing issues and opportunities in the sector.

- **Interactive Workshops and Demonstrations:** Get hands-on experience with the latest EWork and EBusiness tools and technologies.

- **Cutting-Edge Research Presentations:** Stay up-to-date on the latest academic research and innovations in EWork and EBusiness.

- **Exhibition and Networking:** Connect with leading solution providers and engage with fellow industry professionals.

## Key Themes and Focus Areas

ECPPM 2024 will explore a wide range of topics related to EWork and EBusiness in AEC, including:

- **Digital Workflows and Integrated Systems:** Optimizing project delivery through seamless integration of design, construction, and operations.

- **Cloud Computing and Collaboration:** Leveraging cloud technologies to foster collaboration, share data, and improve project coordination.

- **Data Analytics and Artificial Intelligence:** Utilizing data to drive decision-making, predict outcomes, and enhance project performance.

- **Sustainability and Green Building:** Incorporating EWork and EBusiness technologies to promote sustainable design, construction, and operations.

- **Education and Training:** Developing the next generation of AEC professionals with the skills and knowledge needed for the digital transformation.

## Benefits of Attending ECPPM 2024

By attending ECPPM 2024, you will gain invaluable insights and practical knowledge that will empower you to:

- Enhance your understanding of the latest EWork and EBusiness trends and technologies.

- Discover innovative solutions and best practices to improve project efficiency and collaboration.

- Network with industry leaders and experts to gain valuable connections and partnerships.

- Stay competitive and future-proof your career in the rapidly evolving AEC industry.

- Contribute to the advancement of EWork and EBusiness in architecture, engineering, and construction.
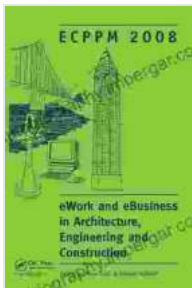

## Call to Action: Register Now!

Don't miss this exceptional opportunity to shape the future of AEC. Register for ECPPM 2024 today and join us in Copenhagen, Denmark, to unlock the transformative power of EWork and EBusiness for your projects and career.

Early bird registration discounts are available for a limited time. Secure your spot and save by registering before [Date].
