Print length: 460 pages

The conference will feature a keynote address by Professor Carlos Sousa, Director of the Laboratory of Bridges and Structures at the University of Porto. Professor Sousa is a world-renowned expert in the design and construction of multi-span large bridges. He has been involved in the design of some of the most iconic bridges in the world, including the Vasco da Gama Bridge in Lisbon, Portugal.

In addition to the keynote address, the conference will feature a number of technical sessions on the following topics:

- Design of multi-span large bridges
- Construction of multi-span large bridges
- Maintenance of multi-span large bridges
- Case studies of multi-span large bridges

The conference will also feature a number of social events, including a welcome reception, a conference dinner, and a technical tour of the Vasco da Gama Bridge.
