In *Underground: The Story of People*, author David Macaulay takes us on a captivating journey into this subterranean world. Through vivid prose and stunning illustrations, Macaulay brings to life the stories of those who have lived and worked underground, revealing the challenges they faced and the triumphs they achieved.

We meet cave dwellers in prehistoric France, who used animal skins and bones to create elaborate underground homes. We follow miners in 19th-century England, who risked their lives to extract coal from deep within the

earth. And we join tunnel builders in modern-day China, who are constructing a massive high-speed rail line that will connect major cities.

Macaulay's writing is both informative and engaging, weaving together historical facts with personal anecdotes and scientific insights. He paints a vivid picture of the challenges faced by those who live and work underground, from the darkness and dampness to the dangers of cave-ins and explosions.

But *Underground* is more than just a history of human exploration. It is also a celebration of human resilience and ingenuity. Macaulay shows us how people have adapted to the unique challenges of living underground, developing innovative technologies and creating vibrant communities.

In one particularly poignant chapter, Macaulay tells the story of a group of miners who were trapped underground for days after a cave-in. Despite the darkness, cold, and hunger, the miners refused to give up hope. They worked together to find a way out, and they eventually emerged victorious.

Underground: The Story of People is a fascinating and inspiring book that will appeal to readers of all ages. It is a reminder of the human spirit's ability to overcome adversity and to create something beautiful even in the most challenging of circumstances.
